

~~Check~~

Guideline for this week (9.11.2020 - 13.11.2020)

- 1) Watch the video. It contains:
 - * a motivation why to study Dedekind domains
 - * explanations of the main statements/definitions of section 2.2. in Tian's manuscript
 - * remarks on proofs
 - * examples
- 2) Work through Tian: Section 2.2. "Dedekind domains"
(Section 2.1 on noetherian rings & section 2.3. on localization will not be covered in the lectures, consult these if you need more background material)
- 3) Write any question on the material of section 2.2. to your tutors, Andreas or me.
- 4) On monday, 16.11.2020, there will be
 - * an open question session (on section 2.2. or anything)
 - * a poll for feedback
(if possible join to help improving the lecture's style)

Afterwards, the lecture will continue as usual with chapter 3.
